Confirmation of REACH Conformity

Dear valued customer,

Thank you for your request concerning the European Union REACH-regulation.

We confirm that Aero Consultants is fully REACH compliant as non-European distributor.

We'd like to state as follows:

- Aero Consultants is aware of the influence of REACH and will do everything which is necessary to provide undisturbed business along the supply chain.
- Aero Consultants as a UK (non-EU) based distributor is neither able to register nor to appoint only representatives. This is only allowed for manufacturers and importers (Art.8, Chap.1)
- All substances included in our products were already registered before the deadline by our suppliers or upstream suppliers.
- At current status of knowledge all materials supplied to our customers do NOT contain any substances on the SVHC candidate or authorisation list if not otherwise listed in the Material and Safety Datasheet (MSDS) of the products.
- The REACH representative for Aero Consultants (UK) is: Rachel Bridge
T: +44 (0)1480 432111
E rachel@aero-consultants.co.uk
- Aero Consultants will take care of information flow along the supply chain
- Because of our European suppliers and already registered substance we can sell and distribute products and mixtures all over Europe like other European Traders.

For further questions we remain at your disposal.

Yours sincerely

Darren Coniff
Sales and Marketing Director
